Reviews

Microglia of the Brain: Origin, Structure, Functions

O. S. Alekseeva, O. V. Kirik, E. G. Gilerovich, and D. E. Korzhevskii 257

Antibiotic Peptides

D. Yu. Kormilets, A. D. Polyanovsky, V. A. Dadali, and A. T. Maryanovich 269

Comparative and Ontogenic Biochemistry

Phosphohydrolases in Turbellaria *Phagocata sibirica*

E. A. Burenina and M. I. Zhukovskaya 277

Different Effects of 5-HT₁ and 5-HT₂ Receptor Agonists on Excitability Modulation
of Motoneurons in Frog Spinal Cord

N. A. Kalinina, A. V. Zaitsev, and N. P. Vesselkin 284

Morphological Basics for Evolution of Functions

The Effect of Diet-Induced and Melanocortin Obesity on Expression of Tryptophan Hydroxylase 2
in the Dorsal Raphe Nucleus and Ventral Tegmental Area in Mice

*E. V. Mikhailova, I. V. Romanova, K. V. Derkach,
O. N. Vishnevskaya, and A. O. Shpakov* 293

The Rat (*Rattus norvegicus*) as a Model Object for Acute Organophosphate Poisoning.
5. Morphofunctional Alterations in Kidneys

V. E. Sobolev, E. A. Korf, and N. V. Goncharov 302

Problem Papers

Distribution of Calcium-Binding Proteins and Cytochrome Oxidase Activity in the Projective Zone (Wulst) of the Pigeon Thalamofugal Visual Pathway: A Discussion in the Light of Current Concepts on Homology between the Avian Wulst and the Mammalian Striate (Visual) Cortex

M. G. Belekova, N. B. Kenigfest, D. S. Vasilyev, and T. V. Chudinova

313

Short Communications

Changes in Cardiac, Respiratory and Motor Activity of Rat Fetuses Evoked by Injections of a Cholinesterase Inhibitor Physostigmine

N. D. Vdovichenko and O. P. Timofeeva

329

Effect of Insulin on Lipid Peroxidation and Glutathione Levels in a Two-Vessel Occlusion Model of Rat Forebrain Ischemia Followed by Reperfusion

I. I. Zorina, O. V. Galkina, L. V. Bayunova, and I. O. Zakharova

333

Long-Term Effects of Perinatal Hypoxia on the Distribution of GABAergic Neurons in the Rat Neocortex

L. I. Khozhai and V. A. Otellin

336
