Vol. 54, No. 6, 2018

Simultaneous English language translation of the journal is available from Pleiades Publishing, Ltd.
Distributed worldwide by Springer. *Journal of Evolutionary Biochemistry and Physiology*
ISSN 0022-0930.

Comparative and Ontogenic Biochemistry

Biochemical Aspects of Hydroquinone Impact on Motor Activity in Newborn Rats

M. A. Terpilovskii, S. V. Kuznetsov, and N. V. Goncharov 425

Semi-Synthetic Ecdysteroids and Their Impact on Reproduction in the Domestic Fly *Musca domestica* Strains

*R. G. Savchenko, S. A. Kostyleva, V. N. Odinokov, L. V. Parfenova,
T. T. Akhmetkireeva, and G. V. Benkovskaya* 434

Comparative and Ontogenic Physiology

Effects of Hypoxia or Dexamethasone at Different Gestation Periods on Fear Conditioning in Adult Rats

L. A. Vataeva, E. I. Tyulkova, A. N. Alekhin, and V. A. Stratilov 442

Role of the GluR2 Subunit of AMPA Receptors in Associative Learning in the Honeybee *Apis mellifera* L.

T. G. Zachepilo, A. A. Davydova, A. I. Vaido, and N. G. Lopatina 449

Effect of Photobiomodulation by Red and Infrared Laser Radiation on Motility of *Paramecium caudatum*

N. N. Petrishchev, G. V. Papayan, L. V. Chistyakova, A. V. Struy, and D. R. Faizullina 457

Kinetic and Thermodynamic Characteristics of Lactate Dehydrogenase in Skeletal Muscles of Homeo- and Heterothermic Animals at Low Body Temperatures

R. A. Khalilov, A. M. Dzhabarova, S. I. Khizrieva, and V. R. Abdullaev 465

Morphological Basics for Evolution of Functions

Intersegmental Thoracic Descending Interneurons in the Cockroach *Periplaneta americana*

I. Yu. Severina, I. L. Isavnina, and A. N. Knyazev

474

Short Communications

Adaptation of Different Types of Neurons in the Midbrain Auditory Center to Sound Pulse Sequences

M. A. Egorova, E. S. Malinina, A. G. Akimov, and G. D. Khorunzhii

482

Age-Related Features of Resistance of the Nigrostriatal System under Proteasome Dysfunction in Rats

I. V. Ekimova, D. V. Plaksina, and R. S. Kalinin

487

Altered Expression of Glucocorticoid Receptors in the Rat Hippocampus after Perinatal Hypoxia and Its Correction by a GABA Derivative

N. E. Ordyan, S. G. Pivina, V. V. Rakitskaya, V. K. Akulova, and V. A. Otellin

491

The Sleep–Wake Cycle and Molecular Chaperones: New Evidence in Support of the Hypothesis of the Critical Function of Paradoxical Sleep

Yu. F. Pastukhov and V. V. Simonova

494

Magnetoreception in the Retina of the Domestic Pigeon *Columbia livia*: a Retinographic Search

*A. Yu. Rotov, R. V. Cherbunin, K. V. Kavokin, N. S. Chernetsov,
M. L. Firsov, and L. A. Astakhova*

498

Peculiarities of Emotional Behavior of Aged Rats in Preclinical Parkinson's Disease Model

M. V. Chernyshev, I. V. Ekimova, A. R. Gazizova, O. A. Sapach, and Yu. F. Pastukhov
